

PUB invites you to visit Kallang River: Bishan – Ang Mo Kio Park

When: Saturday 16 Jul 2022

Time: 3:30pm (Bus leaves MBS at 3:30pm sharp)

The KRBAP showcases ingenuity in climate change adaptation: managing flood risks while building with nature and enhancing the environment. Participants will understand how KRBAP was designed holistically to achieve objectives of stormwater management, as well as creating natural habitats for biodiversity (through the naturalised riverbanks) and providing recreational spaces for the visitors of the park (through the integration of riverbanks with the adjacent park).

Further information can be found at

<https://www.pub.gov.sg/abcwaters/explore/bishanangmokiopark>

This site visit is organised by PUB as part of the WCRP Sea Level Conference.
